

DOWELER AND BISCUIT JOINERS

Doweler **89**
Biscuit Joiners **90**

www.felisatti.es

RF12/710

Professional doweler designed for making high precision pair holes for dowels with center-to-center distance of 32 mm in joining operations. Fast and accurate edge-to-edge and mitre corner joints.

SPECIAL FEATURES

- Powerful 710 W motor allows to work with any wood hardness
- Adjustable depth guide
- Used for all types of joints from 3 - 12 mm
- Locking of spindle for quick and easy replacement of the bit
- Adapter for connection to dust removal system
- Light weight and comfortable ergonomic design
- Stop system for fast and precise positioning. Retractable stop pins and auxiliary stops facilitate drilling near the edge - without the need for marking.

TECHNICAL DATA

RF 12/710

Input power	W	710
Rotation speed	min ⁻¹	18500
Collet size	mm	8
Adjustable mill angle	°	0 - 90
Maximum hole depth	mm	43
Distance between centers of mills	mm	32
Drilling depth	mm	0 - 37
Minimum/maximum diameter of mills	mm	5 / 12
Weight	kg	3.60
Item No.		136260170
Standart equipment		Screwdriver (hexagon S2, 5mm), set of 6mm and 8mm drill and dowels, oiler, template marker, pin installation, dust extraction adapter, carry case
